PROFESSIONAL EXPERIENCE

Front End Developer —JADS (Dubai, UAE)

2022 – Present

- Built and maintained UI components using React, Tailwind, and JavaScript.
- Developed and managed landscape service websites for clients, including SEO integration, keyword optimization, content updates, Google Ads campaign setup, daily budget management, and Facebook Ads campaign handling.
- Submitted and managed access pass applications through online government/community portals across Dubai, UAE.
- Created 2D/3D landscape design layouts for approval from Dubai Municipality and community management authorities.
- Designed and developed websites using WordPress, custom-coded sites, and CodeIgniter frameworks, handling both frontend and backend development.
- Integrated REST APIs and improved overall UI performance.
- Collaborated with backend and design teams to deliver scalable features.
- Maintained code quality using Git version control and reusable components.

Front End Developer — QuickenSol IT Solutions LLP (Nagpur, India)

2021 – 2022

- designed client-side interfaces, front-end modules, and wireframes, creating visually appealing templates using Photoshop.
- Developed multiple successful mobile-responsive websites and cross-platform applications (Android & iOS), including APK generation and deployment processes.
- Integrated and consumed REST APIs for dynamic functionality in web and mobile applications.
- Managed WordPress websites end-to-end, including content updates, image optimization, JavaScript-based popups, and SEO plugin configuration.
- Designed and developed Ionic applications, including UI/UX design, API integration, and feature implementation.
- Worked with Flutter for basic mobile application design and development tasks.
- Integrated APIs, optimized UI responsiveness, and implemented reusable UI components.

- Worked directly with clients to refine UI/UX requirements.
- Implemented reusable components and responsive layouts.

Partner & Web/Business Developer — Egreeb PSP Provider (Nagpur, India)

2021

- Created websites for small businesses.
- Designed and developed websites for small businesses.
- Managed project delivery, client coordination, and business operations.
- Gained entrepreneurial experience despite startup closure.

MIS Executive Team Leader — GenXCoders Pvt Ltd (Nagpur, India)

2020 – 2021

- Worked on SDMS from scratch, handling the complete process from document scanning to uploading and maintaining records in the system.
- Managed and updated Excel sheets regularly, ensuring accurate data entry and tracking.
- Prepared and submitted hourly reports to the manager for workflow updates and progress monitoring.

RECENT PROJECTS

E-Commerce Website (MERN)

- Full MERN e-commerce app with cart, authentication, admin panel.
- Built a full e-commerce application with product listing, add-to-cart, login/signup, and admin controls.
- **Tech Stack:** React, Node.js, Express, MongoDB, Tailwind.
- **Features:** JWT authentication, protected routes, order management.
- GitHub & Live link - <https://opinion-matters-ecommerce-front-end.vercel.app/>
